

Setting up a new Lone Star Car Wash account

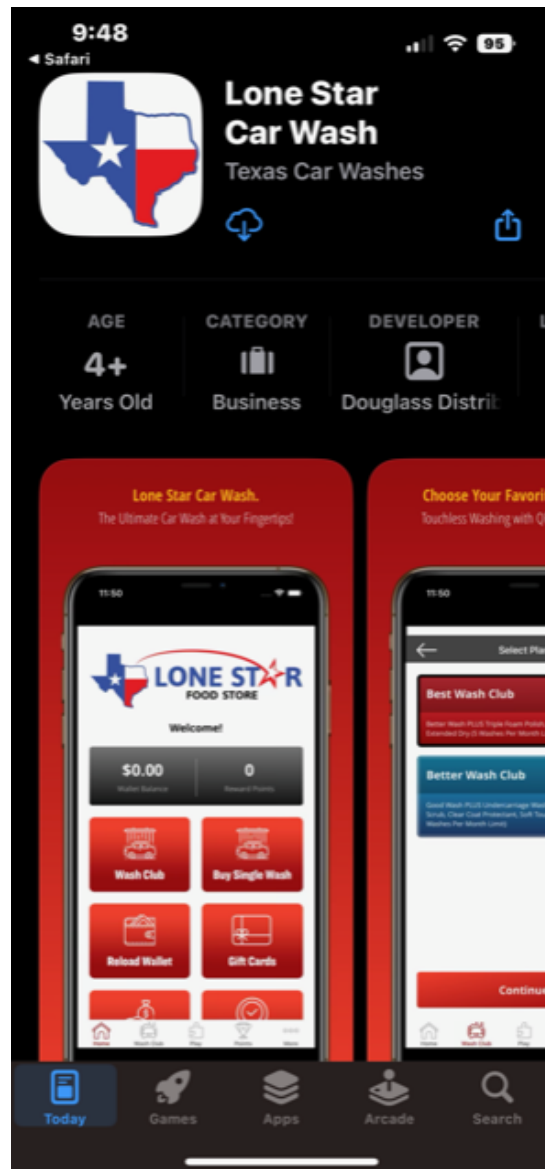

Thanks for your interest in our Lone Star Car Wash app!

With the app you may purchase individual washes, subscribe to our Wash Club, send gift cards to others and refer friends for rewards.

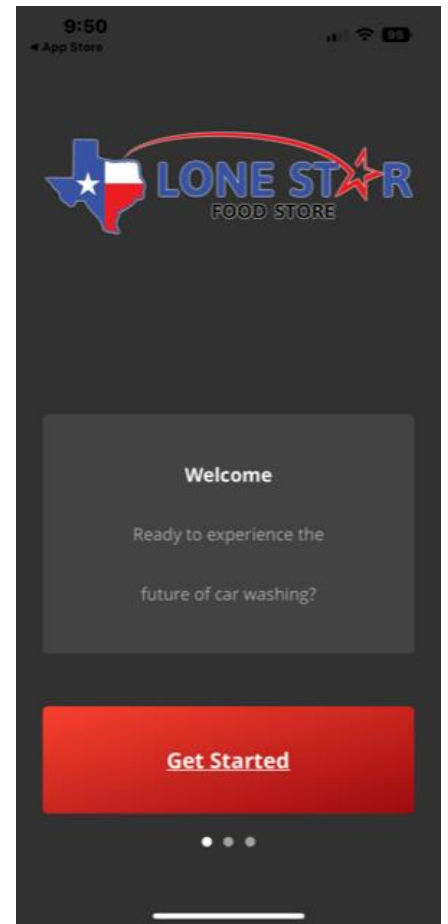

The first step is to download the app. You may either text LONE STAR to 575-222-2201 or scan this QR code >>>

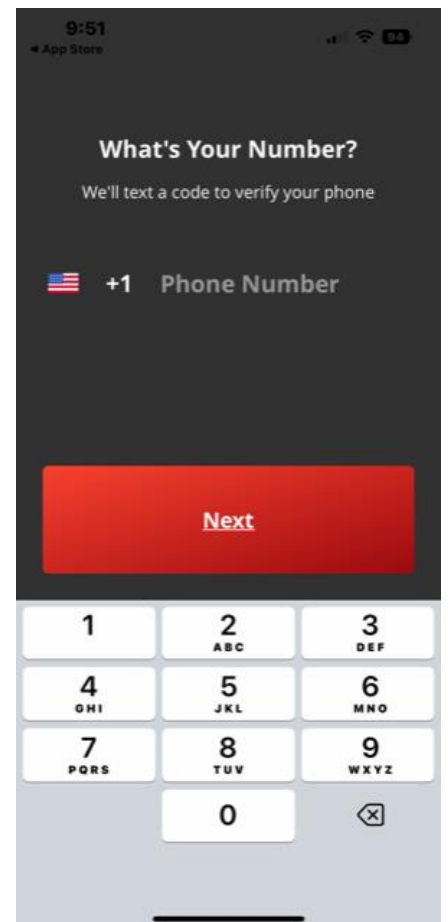

Here's what the app looks like in the Apple and Google Play store

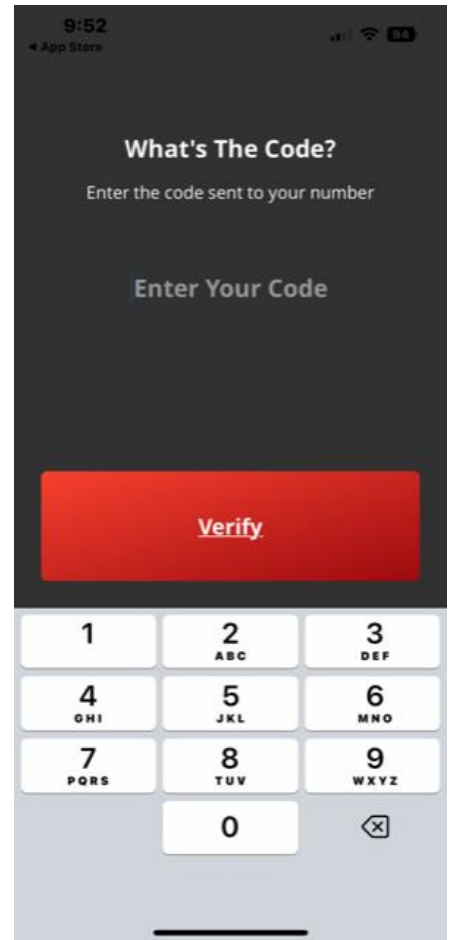

Once the app is downloaded to your phone, you're ready to VERIFY your phone number. To start, press the "Get Started" button.

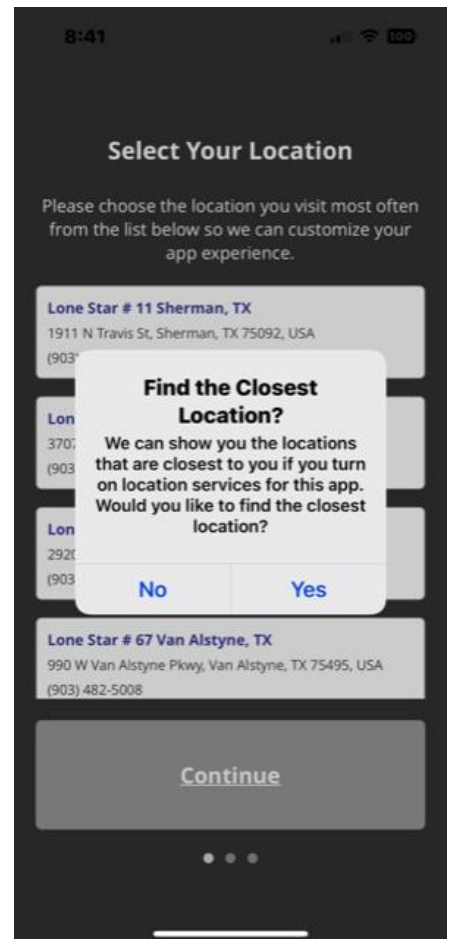

Enter your cell phone number and press "Next".

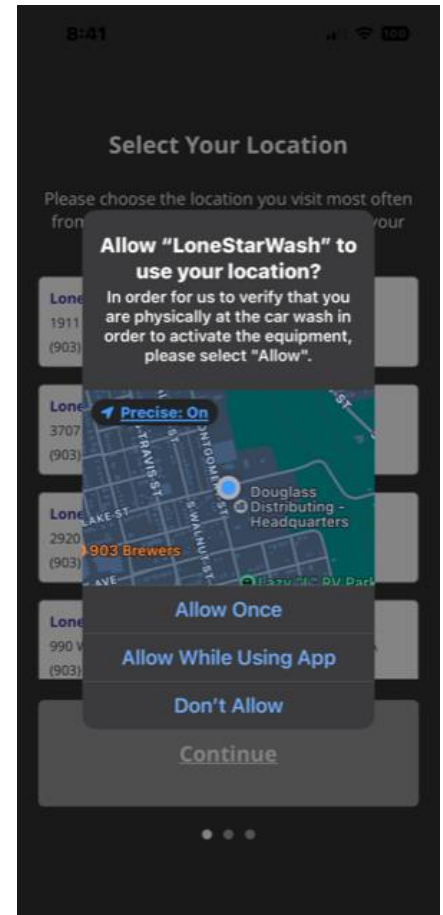

You will receive a code that is texted to your phone. Enter this code and press verify.

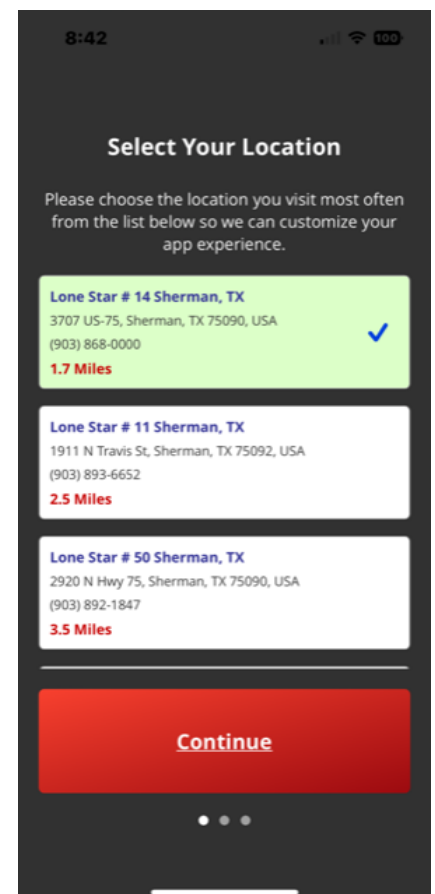

You'll be asked if you want to find the closest car wash to your present location. If you select YES – you will be asked to enable location services on your phone. This allows the phone to know your present location in relation to our car washes.

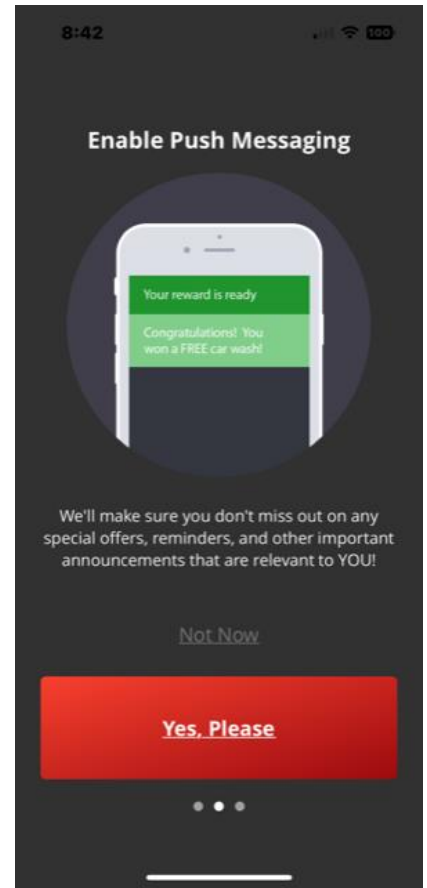

You **MUST** enable location services in order for the app to know if you are at one of our car wash locations. You will want to press “Allow While Using App”. If you press “Allow Once” the app will work ONE time only. If you “Don’t Allow”, you will be unable to use the Lone Star Car Wash mobile app.

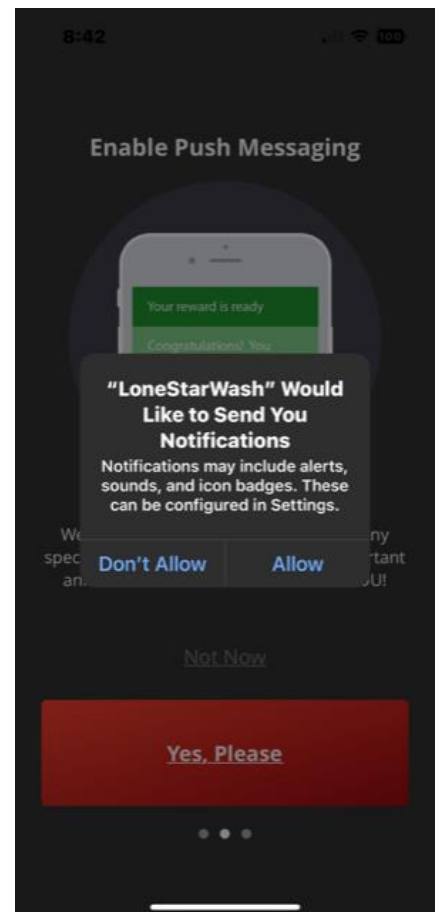

Once location services are enabled, you will be able to select a wash location. NOTE – this does NOT mean you are limiting yourself to this one location. It only means this is the closest wash to your current location.

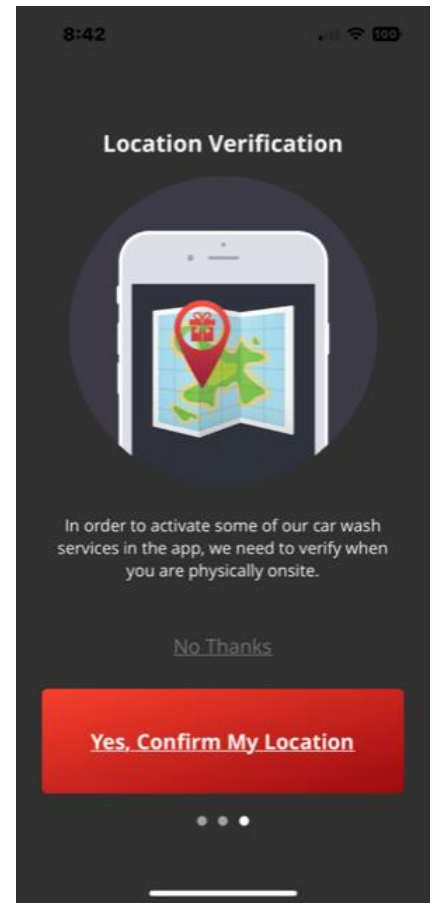

Push messaging allows us to alert you to specials, discounts and rewards. Although not required, it is a great way to learn of great wash opportunities.

If you answer “Yes” to notifications, you will see this screen. To confirm your choice, press “Confirm”.

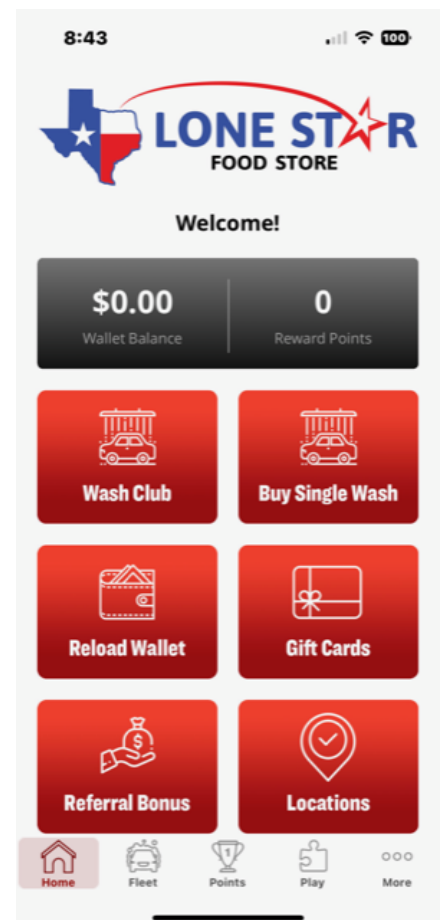

Once again you will be asked to “Confirm My Location” – press the Yes button in order to use the app to activate a car wash location.

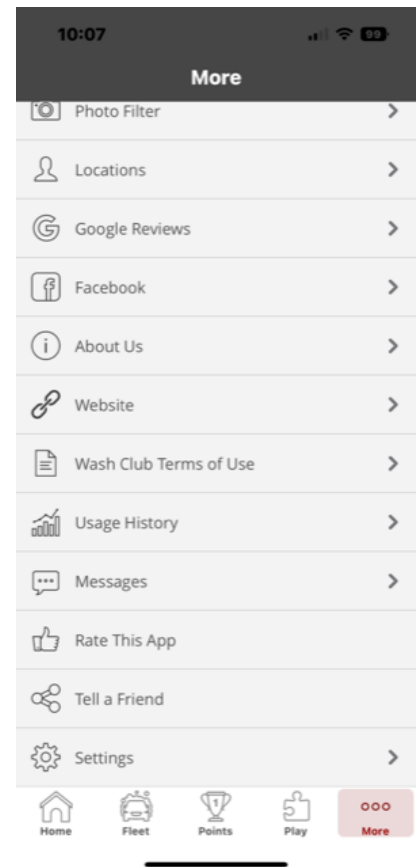

Once you confirm your location, you are presented with the home screen. Remember that all the previous steps were to VERIFY your phone number and phone settings. NOW we will create your Lone Star Car Wash account.

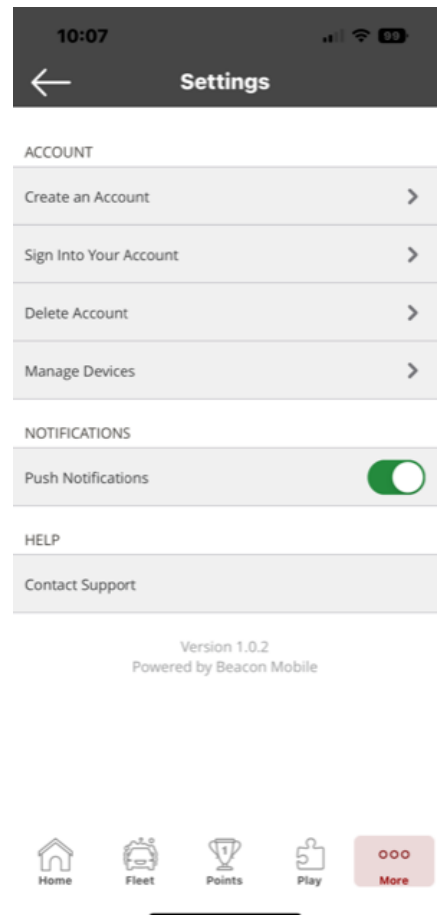

NOTE the small icons running along the bottom of the screen, to create your account, you will press the “More” icon.

You will then press the Settings button (you may have to scroll down to see this button).

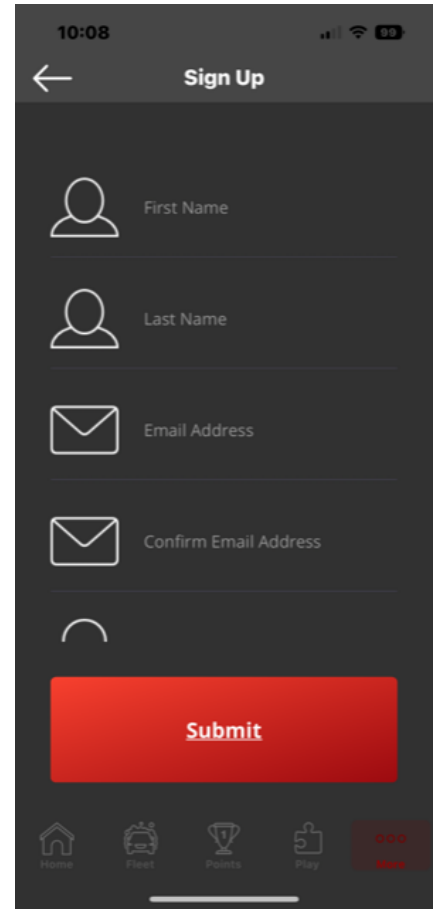

Press the "Create an Account" button

Enter the requested information and press the “Submit” button.

If you do not see the “Submit” button after you complete the information, you may need to touch on the background to make the virtual keyboard disappear.

Congratulations! You’ve completed the registration process.
NOTE – you should see your name next to the Welcome message (located under the Lone Star logo). The app is now ready to purchase washes (payment will be setup during that process), receive funds and refer friends.
